Summary

Front-End Developer and Software Engineering graduate (HND) currently pursuing a Top-Up Degree at ICBT Campus. Experienced in building modern web applications using React, Vite, JavaScript, HTML, and CSS. Skilled in developing responsive user interfaces, integrating REST APIs, and creating scalable web solutions. Passionate about clean UI/UX and high-performance web applications.

Skills

Node.js	React.js	Figma
JavaScript	Vite	MySQL
Python	HTML	MongoDB
ASP.NET core	CSS	Git / GitHub
REST API	Bootstrap	Open AI

Education

BSc (Hons) in Software Engineering ICBT Kurunagala Campus, Sri Lanka	May 2026 – Ongoing
Higher National Diploma in Software Engineering ICBT Kandy Campus, Sri Lanka	April 2024 – Feb 2026

Projects

Exora Website [exora-website.vercel.app] [github.com/HashenS/exora]	March 2026 – Ongoing
---	----------------------

A modern portfolio and digital services website developed to showcase web development and drone media services. The platform presents services, project showcases, and custom order options with a responsive user interface. I designed and implemented the website structure, UI layout, and responsive components to create a clean and professional user experience.

Technologies: HTML, CSS, JavaScript, Bootstrap, React, Vite, Git, GitHub

Developer Portfolio Website [hashen.vercel.app] [github.com/HashenS/Portfolio]	Feb 2026 – Feb 2026
--	---------------------

A personal developer portfolio website created to showcase my software engineering projects, technical skills, and professional experience. The website provides an organized platform to present web development projects, GitHub repositories, and contact information for potential employers and clients. I designed and developed the interface with a responsive layout to ensure accessibility across different devices.

Technologies: HTML, CSS, JavaScript, Bootstrap, React, Vite, Git, GitHub

Completed Courses

Free Code Camp

Online(2025)

UX / UI Design with Figma

DP Education(2025)

Personal Skills

Strong understanding of Data Structures & Algorithms

Knowledge of Object-Oriented Programming (OOP)

Familiar with Software Development Life Cycle (SDLC)

Experience working with Agile development practices

REST API integration and database design

Experience with UML diagrams, Fine-tuning & Prompt Engineering a LLM

Familiar with REST API development and database design

Strong problem-solving, communication, and teamwork skills
